15.03.2022, TUESDAY

MEDICAL CAMP

Ragas general hospital which is situated in the premises of Ragas dental college & hospital conducted a medical camp. The NSS volunteers actively participated in the program by checking blood pressure, pulse, temperature and weight of the participants. In this camp, free medical checkup was done to the public for various ailments including hypertension, diabetes mellitus, anemia, gastritis, vomiting, abdominal pain. Free tablets and syrups were distributed to the needy. Nearly 80 people were benefitted by this medical camp.

16.03.2022, WEDNESDAY

DENTAL CAMP

The department of Public Health Dentistry, Ragas Dental College & Hospital under the guidance of Prof. Dr. PD Madankumar, MDS, Head of the Dept., conducted a dental camp on 16th March, 2022. Along with NSS volunteers, 25 students who were on their internship, also actively participated in the program. The camp was conducted in the school premises. All the school children and the village public who attended the camp were screened for any dental problems. After screening, those who are in need of any kind of advanced/complicated treatment were referred to the college, where they will be given free treatment and those who were in need of simple dental needs were identified and treatments like extraction, scaling, restoration were done on the day. Nearly all the school children who attended school on that day and 100 public were benefitted by this program.

17.03.2022, THURSDAY

AWARENESS ON USAGE OF TOBACCO

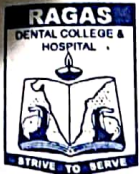

Dr. Iyapparaja, M.D.S., Reader, Dept. of Public Health Dentistry, Ragas Dental College & Hospital had delivered a speech on awareness on using tobacco products to the village public. Her speech was mainly focused on the harmful effects of tobacco and the great harm caused by the second-hand smoke that is emitted from smoking it. Few videos were also played in a LCD screen to educate the participants audio-visually. On the day of dental camp, nearly 30 village people who were found to be current smokers were identified and were referred to the smoking cessation clinic available at the Ragas dental college & hospital. Their level of dependency was analyzed scientifically and depending on that, the treatment modalities were prescribed to them.

18.03.2022, FRIDAY

ORAL HEALTH FOR OVER-ALL HEALTH FOR CHILDREN

Cavities (also known as caries or tooth decay) are one of the most common chronic diseases of childhood in our Country. Untreated cavities can cause pain and infections that may lead to problems with eating, speaking, playing, and learning. Children who have poor oral health often miss more school and receive lower grades than children who don't. On this context, this day program was planned and the target group is the school children. Children were given a speech by NSS volunteers using models and posters
