## 2.2.3 Activities on the building and sustenance of innate talent among students

The institution goes all the way out to ensure that the students are nurtured towards holistic development. There a plethora of events / activities that are organized through the year to bring out their innate talent not only in academics but also in various co-curricular activities viz. cultural fests, sports and literary clubs.

Their leadership skills and team building skills dare also honed through the formation of a student council. This in turn closely interacts with the other committees and the college administration and organizes the events for the year. The sports club organizes at least a dozen indoor and outdoor sports which will have participation from both the undergraduate and postgraduate students. The literary fest is also conducted alongside of the sporting events which greatly helps in the personality development of the students as it hones the soft skills which would be very essential to their employability.

The various cultural events and the celebration of festivals in the campus provide the students the optimal ambience to showcase their co- curricular talents, camaraderie and feeling of brotherhood amongst them and their seniors and keeps them rooted to their cultural ethos and traditions.

The various activities that had taken place during the assessment period (2017-2022) have been documented and attached as weblinks.
